(1) What PPP Models do you know? (2) Stages of a PPP project under the Kyrgyz PPP Law 2012 and PPP Law 2019?

Sultan

Sadyraliev Bekzat Build - Operate - Transfer (BOT) ...Build - Own - Operate (BOO) ...Build - Own - Operate - Transfer (BOOT) ...Design - Build. ...Design - Build - Finance. ...Design - Build - Finance - Operate (DBFO) ...Design - Construct - Maintain - Finance (DCMF) The government has been trying to introduce PPP in Kyrgyzstan for a few years now. The current PPP Act was enacted in 2012 and some secondary legislation was adopted in subsequent years. The PPP Development Program 2021 was approved by the Government in 2016. The Program announced a goal to attract at least KGS 20 billion of private financing in infrastructure development by 2021. Currently (as of mid-2019), less than 5% of this amount have been raised with only three PPP agreements signed, specifically the hemodialysis centers, cinema theater reconstruction and Bishkek public transport e-ticketing projects. — ANONYMOUS
